

My Sherfield Park story started like many others: my wife and I moved out of London in search of a family home for our growing family. My first impressions were that this was an estate intentionally built for community and families to thrive. Six years on and I still get the same elated feeling every time we return from a short duration away. To date, I've been actively involved in bringing high speed internet to the second half of the estate (before joining council), overseeing the speed awareness initiative, overseeing the SP Neighbourhood Watch, collaborative development of the Community Emergency Plan, Open Space project contributions; most recently, I was appointed Chair of the Parish Council Planning Committee. Community activities outside of council include my role as Assistant Scout Leader of our newly formed Sherfield Park Scout group and Assistant Coach of the Chineham Lions rugby minis. I am also currently enrolled in an MBA at Henley Business School.
